

IFFCO/pdp/P&A/2020

24th August, 2020

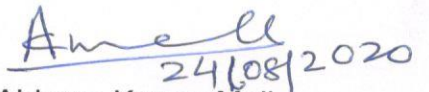

CIRCULAR

In view COVID positive cases detected in our Township, the guidelines for isolation to be extended to asymptomatic positive cases, very mild and pre- symptomatic cases is given as below;

1. The person with very mild/pre-symptomatic/asymptomatic positive case shall be in home isolation in a separate room with separate toilet and family members will be in home quarantine. In case separate room with toilets is not available, then the above case shall be shifted to our Covid Care Centre & family members will be in home quarantine.
2. The close contacts of positive cases will be in Home quarantine.
3. The house of COVID-19 positive patient under home isolation will have a sticker affixed indicating that the house is under home isolation.
4. The patient with COVID positive/ family members and quarantine families shall not be allowed to move out of their respective houses otherwise strict disciplinary action will be taken against defaulting employee.
5. All neighbour are requested not to create panic and may help the quarantine families to fulfil their day to day essential need maintaining social distancing.
6. The residents are requested to register their names for COVID-19 tests if they have come in close contact with positive case/having mild symptomatic. Employees/dependants are requested to enter their details in the Register kept at Township Hospital for the purpose & essentially report the findings with evidence.

A doctor of our Hospital will monitor the health status of positive cases on day to day basis and will facilitate health care facilities.

Cooperation of all residents in this regard is highly solicited.
