

**INDIAN FARMERS FERTILISER COOPERATIVE LIMITED
PARADEEP UNIT**

Unit Head Message through Circular

Date: 12.12.2017

To

IFFCO Paradeep Employees, Township residents and School Children

Sub: Celebration of Energy Conservation Day on 14th December, 2017

We feel proud to be a part of country's top most cooperative fertilizer organization which is the largest producer of fertilizers in the country. We are continuously moving on the path of progress by achieving high standards of Productivity, Safety, Environment and Energy conservation and there is further scope of improvement. Apart from that we give emphasis on waste minimization, reduce / reuse / recycle philosophy, usage of alternative sources of energy and better environmental management practices.

The year 2017 was a milestone in our journey of service to the farmers of this country as we completed the Golden Jubilee of inception of IFFCO. Year 2017 will also be memorable for IFFCO Paradeep as we will be rewarded by Bureau of Energy Efficiency in recognition to our exceptional efforts towards energy conservation. Apart from that, this year we have received many awards namely Kalinga Safety Gold Award, Odisha INC Legend Award and IGBC Green Residential Societies – Platinum award. This has become possible due to continuous dedication and hard work from each one of you for the organization.

14th December is an important day for all of us in the Industrial Sector for reasserting our actions toward Energy conservation. The efforts made in promoting the energy efficiency by each and everyone of us will help to save energy appreciably. As part of Energy conservation and continual improvement, Management has implemented ISO 50001:2011-EnMS in Paradeep Unit. I would now urge the employees and township residents to come forward and help in increasing awareness on the importance of saving energy, especially among our young generation.

In order to encourage and develop the spirit of energy conservation, IFFCO Paradeep management has launched an awareness campaign, involving employees, township residents and school children. This aims at sensitizing them towards issues of energy conservation. Main activities of the campaign are Quiz competition, Slogan competition, training to employees on Energy Conservation, Painting Competition for school students. For winners of competitions, prizes will be awarded on Energy Conservation Day i.e. 14th December 2017.

It is my request to every member of Paradeep Unit to participate wholeheartedly in every event for making it a grand success. IFFCO believes in very high standard of Productivity, Energy Conservation, Safety & Environmental Protection and I request my highly sincere, dedicated and innovative team of IFFCO Paradeep to make all efforts to save energy. Let us all pledge to conserve energy at all levels at our workplace and home.

A.K. Panda
