

IFFCO bio-fertilizer plant, phosphoric acid plant evaporator inaugurated

PBD BUREAU

PARADIP, MAY 11

INDIAN Farmers Fertiliser Cooperative Ltd CMD Dr US Awasthi today inaugurated the bio-fertilizer plant, eighth evaporator in Phosphoric Acid Plant and the renovation work of Sulphur Silo in the IFFCO Plant premises here.

Awasthi explained to the gathering about the utilization of Bio-fertilizer and its kind, usage and application.

IFFCO supplies 38 per cent of the country's fertilizer requirement, said he while congratulating the

employees of IFFCO for their tireless efforts and dedication to achieve this mammoth task.

Awasthi assured the farmers' society representatives present at the function that IFFCO will continue its efforts in

future also and lauded the workers at the Bio-Fertiliser Plant for completing the work before schedule.

"Give new ideas for better results and take care of mother earth by reducing use of urea and

balanced use of fertilizers," he urged farmers.

The IFFCO CMD also announced that a Farmers Training Centre will be set up within six months to help farmers get more yield from their land.

Unit Head of Paradeep Plant AK Panda spoke about various achievements of the unit.

He said the Bio-Fertilisers Plant was completed within 10 months at a cost of Rs.4 crore to produce one lakh liters annually.

On this occasion, the senior office bearers of IFFCO Employees' Union and IFFCO Officers' Association were present.
