CONTEXT

Make in India is an initiative of Hon. Prime Minister Narendra Modi to encourage multi-national as well as domestic companies to manufacture their products in India. We, at INSSAN, support Government of India's major national program designed to transform India into a global manufacturing hub and technological center.

With this spirit of contributing our best in realizing Prime Minister's vision, we feel that, to emerge as a global manufacturing powerhouse, Companies and Entrepreneurs of India have to build innovative culture in the oragnisation. To make that happen, it is imperative that employees are continuously energized & motivated for thinking beyond the routine. Also employees must be helped, guided & encouraged for Mental & Emotional Involvement along with Physical Involvement so that they can go that extra mile towards being Creative & Innovative. Because, in this revolution of making India as a strong manufacturing base, employee ideas can play a major role in optimizing Cost, improving Quality & fastening Delivery for achieving ultimate goal of being globally competitive leading to becoming 1st choice of domestic & international customers.

The 18th National Creativity Summit theme "Employee Creativity – A Key Mantra for Success of Make In India" has been carefully selected to reinforce the importance of employee Creative & Innovative power among the Indian Industry aspiring to be part of this national mission. This Summit

objective also focuses on helping organizations in “Igniting the Minds of Employees” for being Creative & Innovative and nurturing “Innovative & Creative Culture” so that Innovation & Creativity is institutionalized where each & every employee enjoys giving Creative Contribution and Creative Value Addition towards making their products globally competitive.
