CIRCULAR

Instances have come to our notice that some employees are found addicted to alcohol resulting in damage to their liver and other vital organs. Eventually, this adversely impacts the performance of employees on the job and also increases the burden of medical expenditure on IFFCO.

It is made clear to all employees that if any medical condition occurs because of use of alcohol, the medical expenses will not be reimbursed by the society.

(Nakul Pathak) 01/11/19,
