To

IFFCO Paradeep Employees, Township residents and School Children

Sub: Celebration of Energy Conservation Day on 14th December, 2014

We feel proud to be part of country's top most cooperative fertilizer organization which is the largest producer of fertilizers. During the current financial year till date, we have produced nearly 11.5 Lakhs MT of complex fertilizer so far and moving towards achieving the target of 16.5 lakhs MT to make our nation self dependent in the production of food grains. We are continuously moving on the path of progress by achieving high standards in production, Energy conservation and Safety & Environment. There is still scope of improvement by increasing the production and minimizing the consumption of energy and raw material, which you will take care in the days to come. Apart from that you all shall give emphasis on Safety, waste minimization, recycle/reuse philosophy and better environmental management practices.

I am very happy to announce that this year 2014 has been particularly important for all of us because during this year, we have received many awards like Greentech Safety Award, Greentech Environment Award, Kalinga Safety Award, CII-Energy Management, FAI Environment Management Award and CII state level SHE award for best performance in the field of Safety, Health & Environment. This is possible because of your continuous dedication and hard work for the organization.

14th December is an important day for all of us in the Industrial Sector for Energy conservation. The efforts made in promoting the energy efficiency by each and every body will help to save energy appreciably. As part of Energy conservation and continual improvement, Management has implemented ISO 50001:2011-EnMS in Paradeep Unit. We would now urge the employees and Township residents to come forward and help in increasing awareness on the importance of savings energy among the people of our Unit, specially our young school children.

In order to encourage and develop the spirit of energy conservation, IFFCO Paradeep management has launched an awareness campaign, involving employees, Township residents and school children. This aims at sensitizing towards issues of energy conservation. Main activities of the campaign are Quiz competition & Slogan competition for employees and Painting Competition for school students. For winners of competition, prizes will be awarded by the IFFCO Management on 15th December, 2014.

It's my request to every member of Paradeep Unit that we all shall extend our whole hearted support for making this event a grand success. IFFCO believes in very high standard of Productivity, Energy Conservation, Safety & Environmental Protection and I request my most sincere, dedicated and innovative team of IFFCO Paradeep to make all efforts to save energy. Let us all pledge to switch off lights when not in use.

A.K. Panda
Unit Head

To All Employees of IFFCO Paradeep Unit.
