

## IFFCO EMPLOYEES SUGGESTION SCHEME

PERIOD: Dec '16 to Nov '17

Indian Farmers Fertiliser Cooperative Limited VILL.-MUSADIA, PARADEEP, DISTT.-JAGATSINGHPUR ODISHA – 754142

## **RECEPIENT OF HIGHEST NO. OF SUGGESTION AWARD**

Sh. Prabir Kumar Pradhan, Optr(SAP) Gr I - 141 nos.

Sh.Suman Kumar Mandal, Dy. Mgr.(SAP) - 81 nos.

Sh.Ajeet Kumar Soni, Asstt. Mgr.(Process)- 58 nos.

## RECEPIENT OF BEST SUGGESTION AWARD

**Sh. Vinay Datir, Mgr.(SAP)** 

Sh.S.K.Mohapatra, Mgr.(GE)

Sh.Kaustubh Kala, Mgr.(GE)

## Performance of Suggestion Scheme (Dec. 2016 to Nov. 2017)

| Suggestion Scheme Performance Information                      | 2016   | 2017  |
|--|--------|-------|
| Number of Employees eligible to participate in the scheme.     | 1274   | 1253  |
| Number of Suggestions received.                                | 1839   | 996   |
| Number of Suggestors who has given suggestions                 | 450    | 355   |
| Number of Suggestions accepted                                 | 225    | 153   |
| Saving related to the Suggestions during the year in Rs. Lacs. | 165.09 | 791.9 |
| Number of Award Winners  | 185    | 150   |

| S.NO. | NAME                | DESIGNATION        | SECTION             | SUGGESTION HEADING  |
|-------|---------------------|--------------------|---------------------|---|
| 1     | A CHAKRADHAR        | Ch Tech(Mech) Gr I | MECH(OFFSITES)      | Hydra approach for D.M. transfer pumps and polished condensate pumps.   |
| 2     | ABHINAV             | Asstt. Mgr.(DAP)   | DAP PROCESS         | Providing ladder approach from DDC to dryer backside  |
| 2     | KHANDELWAL          | Asstt. Mgr.(DAF)   | DAF FROCESS         | To make inclined granulator discharge grizzly   |
| 3     | ABHISHEK            | Dy. Mgr.(Proc)     | PROCESS ENGG        | Installation of a new small size compressor in Ammonia handling section   |
| 3     | SHARMA              | Dy. Mgr.(P100)     | PROCESS ENGG        | Use of hot condensate from ammonia pre-heater and vaporiser of DAP plant in AFBC boiler dearator  |
| 4     | AJAY KUMAR<br>NAYAK | Jr Operator Gr III | CENTRAL<br>WORKSHOP | Side opening of DG emergency house to be enclosed for preventing ingress of dust & installation of 2 exhaust fan for minimizing the room temperature. |
|       |                     |                    |                     | Auto siphon breaker to be installed in acid pump tank   |
|       |                     |                    |                     | Inside brick lining provision for VPTs to avoid direct contact of sulphur vapour  |
|       |                     |                    |                     | Provision of isolation valve at Tr-1 IAT pump tank roof inspection hole   |
| 5     | AJEET KUMAR<br>SONI | Asstt. Mgr.(Proc)  | SAP PROCESS         | Drain Line provision for import line in Tank-C  |
|       |                     |                    |                     | Cooling water header vent line modification   |
|       |                     |                    |                     | Insulation to be provided in HRS all analyser lines.  |
|       |                     |                    |                     | Drain pit to be provided to drain economiser, heat exchanger drip acid.   |
| 6     | AKASH BEHERA        | Dy. Mgr.(DAP)      | DAP PROCESS         | To provide gate with pneumatic actuator at inlet of potash weigh feeder (bottom of potash hopper)   |

| S.NO. | NAME                         | DESIGNATION          | SECTION                 | SUGGESTION HEADING   |
|-------|------------------------------|----------------------|-------------------------|--|
| 7     | ANIL PRATAP<br>SINGH CHOUHAN | Optr(PAP) Gr II      | PAP PROCESS             | Modification in cloth wash spray pipes for ease in cleaning.                                       |
| 8     | ANSUMAN<br>MISHRA            | Optr(DAP) Gr I       | DAP PROCESS             | Door to be provided at D&F plennum outlet duct just back to plennum                                |
| 9     | ANUGRAH<br>NARAYAN JHA       | Asst Tech(Inst) Gr I | INSTRUMENTATI<br>ON - I | Installation of LT Stop push button on Gantery of GSU1&2   |
| 10    | ANUP KUMAR<br>SETH           | Jr Tech(Mech) Gr II  | CENTRAL<br>WORKSHOP     | Requirement of hydraulic puller.   |
| 11    | ARMSTRONG<br>SAHU            | Dy. Mgr.(PAP)        | PAP PROCESS             | Belt filter speed indication at LCS.   |
| 12    | ARUN KR NAYAK                | Rigger Gr L1(Prod)   | DAP PROCESS             | Flange provision in dust separator header line for cleaning  |
| 40    | ARUN KUMAR                   | Mary (Maraka)        | DAP                     | Making of chain mill and its foundation gap spill proof by fixing with rubber skirt as gasket      |
| 13    | BEHERA                       | Mgr.(Mech)           | MECHANICAL              | Replacing traditional nozzle with overflow container for coating of final product                  |
| 14    | ARVIND KUMAR<br>DAS          | Ch. Mgr.(Mech)       | DAP<br>MECHANICAL       | The gear box/exciter kept in store for long time should filled with lubrication oil.               |
| 45    | ADVIND DDAGAD                | Acad Octo/DADVOc.II  | DAR PROOFIGO            | Ammonia drain valve near wash liquor tank direction to be change for ease in operation and safety. |
| 15    | ARVIND PRASAD                | Asst Optr(DAP)Gr II  | DAP PROCESS -           | Brick wall to provide near 63 TG pump to condenset tank pump to prevent dust deposition.           |
| 16    | ASHOK KUMAR                  | Attendant Gr M       | DAP PROCESS             | One door to be fixed in the Laboratory room neaer MCC room side.                                   |
| 17    | ASHOK KUMAR<br>MISHRA        | Tech(Elec) Gr II     | ELECTRICAL - I          | Parallel JB arrangement for Pan Vibrator motor   |

| S.NO. | NAME                                | DESIGNATION          | SECTION  | SUGGESTION HEADING   |
