31.12.2010

HAPPY NEW YEAR

I heartily wish each and every member of IFFCO family a bright, happy and prosperous 2011.

IFFCO has established a tradition of creating new milestones every year. Every year has been full of achievements. The year 2010 has been another year of attainments. As in previous years IFFCO has established new landmarks in the spheres of production, marketing, transportation and services to farmers. By the dint of your hard work and cooperation the society, till December, 2010 has sold more than 93 lakh tonnes of fertilisers and produced over 65 lakh tonnes of fertilisers.

We have made all out efforts to take Indian Agriculture to dizzy heights by launching "Save the Soil Campaign" last year. This campaign has been launched with a view to promote soil health and balanced fertilisation in 119 villages. Efforts are being made to cover more villages in a phased manner.

I am fully confident that we shall crown our efforts with success with added vigour and spirit. Once again I compliment you all on the occasion of New Year and fondly hope that we shall continue to tread on the path of progress with the same enthusiasm and devotion with the active support of Dr.U.S.Awasthi and his team and all members of IFFCO's Board.

With Best Wishes.

(Surinder Kumar Jakhar)
