Unit Head's Message through Circular

Date: 11.12.2020

Dear

IFFCO Paradeep Team, Township residents and School Children

Sub: Celebration of Energy Conservation Day on 14th December, 2020

It is a matter of pride to be a part of India's largest fertilizer cooperative organization which is also among the least energy consuming producer of fertilizer in the world. We have created a unique identity in the fertilizer sector by achieving high standards of Productivity, Safety, Environment and Energy conservation and there is further scope for improvement. As aware global citizens we give high emphasis on good environmental practices, use of alternative energy sources, waste minimization and concepts of circular economy.

In year 2019-20 we broke monthly highest production records for fertilizer, P2O5 and Sulphuric acid after 8 long years. This year we have already surpassed these records four times and we are all set to establish new records of monthly and yearly production, dispatch and efficiencies. This year we have been recognized with awards by many reputed institutions such as FAI, CII, NSCI, Apex India for our excellent practices in the field of Safety, Environment and Energy. This has become possible due to continuous dedication and hard work from each one of you for the organization.

14th December is an important day for all of us in the Industrial Sector for reasserting our actions toward Energy conservation. Last year the Sp. Energy consumption was least among the last 8 years & we aim to decrease it further this year. We commissioned another 100 kWp Solar Power plant on top of the Community Centre in January 2020 to promote utilization of Renewable energy. Paradeep Unit was certified for the new version of Energy Management System ISO 50001:2018 in October 2020, for continual improvement towards Energy Conservation. I would now urge the employees and township residents to come forward and help in increasing awareness on the importance of saving energy, especially among our young generation.

Like every year, this year also the energy conservation day will be celebrated at IFFCO Paradeep with various events & competitions. Main activities of this year's campaign are Photography competition & Slogan competition for employees and Painting Competition for school students. Winners shall be felicitated on Energy Conservation Day i.e. 14th December. It is my earnest request to every member of Paradeep Unit to participate wholeheartedly in every event for making it a grand success.

IFFCO believes in very high standard of Productivity, Energy Conservation, Safety & Environmental Protection and I request my dedicated team of IFFCO Paradeep to make all efforts to save energy. Let us all pledge to conserve energy at all levels in our workplace and home.

K. J. Patel
Unit Head
