

We won this seat at a closely contested global elections held for the post in Quebec recently where we out shined candidates from the Americas and Europe.

I also happy to share that our Associates and subsidiaries are doing well. The JIFCO plant is on the path to be fully commissioned and has started production and dispatch of Phosphoric Acid. With a new partner on board the ICS Senegal is also on the path towards a focused revival.

Friends, this feeling of prosperity and cheer will further increase when we will use it to cleanse our spirit and our surroundings. That is why IFFCO has decided to wholeheartedly support the vision of a clean India and we have pledged ₹ 10 crore every year to the 'Swachh Bharat Abhiyaan'. Let us all make a difference and work towards a clean and green India. I am confident that our societies will also join us in this mission.

Taking a cue from the developments around us, one can safely say that communication is of the paramount importance today. Even the most traditional organizations are taking the route of social media to spread a word. IFFCO is no exception and I urge all of you to make the best of social media and use it carefully to propagate a positive message about the organization.

Once again I wish you a very Happy Diwali. May god bless you and your family.

Dear Friends,

At the outset I would like to wish you and your family a very happy, prosperous and safe Diwali. May the festival of lights fill your life with joy and cheer.

There is a feeling of optimism in the country. We feel confident about the future of this great country and hope that this feeling continues.

I foresee a very bright and prosperous future not only for India but also for IFFCO, the great cooperative institution that we have so carefully nurtured over the years. Our going might get tough at times but our cohesiveness triumphs over every hurdle. It's due to this very fact that we have rebounded this year and are very confident to post a profit in excess of ₹ 1000 crores.

Another great news is that after a gap of many years India (thru IFFCO) has finally secured a place on the board of the International Cooperative Alliance (ICA). It's a very proud moment for IFFCO because our young and dynamic Director Mr. Aditya Yadav will be the one who will be representing IFFCO and India on their Global Board.
