

**INDIAN FARMERS FERTILISER COOPERATIVE LIMITED
PARADEEP UNIT**

Date: 12.02.2022

Sub: National Productivity Week, 12th to 18th February 2022.

Dear Colleagues,

We feel proud to be part of India's largest integrated phosphatic fertiliser complex at Paradeep, which contributes about 14% phosphatic fertiliser production in India. This year we have already produced 17.95 Lakh MT of complex fertiliser so far and we are expecting of 19.91 lakh MT production this year, will be highest ever fertiliser production from Paradeep Unit despite adverse challenges like raw material limitation, Covid-19 lock downs. This year, we have achieved various production accomplishments by surpassing previous records.

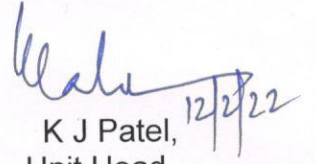

- Highest ever monthly P₂O₅ production of 85,050 MT in the month August 2021 @ 2744 MT per day average (104% of installed capacity). This corresponds to employee productivity of 635 MT against previous highest of 618 MT.
- Highest ever monthly Strong Phosphoric acid production of 57,539 MT in the month January 2022, @1856 MTPD. This corresponds to employee productivity of 429 MT against previous highest of 419 MT.
- Highest ever daily Bulk Fertilizer production of 8,250 MT (131.5% of installed capacity) was achieved on 11th Dec 21. This corresponds to per employee productivity of 6.95 MT against previous highest of 6.82 MT.
- Highest ever daily Phosphoric acid production of 3,550 MT (134 % of installed capacity) was achieved on 15th Dec 2021. This corresponds to employee productivity of 26.50 MT against previous highest of 25.75 MT.
- Highest ever daily Fertilizer despatch of 14,678.55 MT with handling of five fertilizer rakes on 12th Dec 2021. This corresponds to employee productivity of 12.36 MT against previous highest of 10.51 MT.

Such outstanding achievement would not have been possible without the sincere and dedicated efforts by all of you. To increase awareness about productivity among employees, we are celebrating the "National Productivity Week" during 12th to 18th February every year. The theme of Productivity Week-2022 is **"Self Reliance Through Productivity"**.

In order to sustain development of organization, we must work on a "Self-reliant" path to reduce dependence and emphasis shall be given on efficient and productive use of material and resources to improve productivity. To enhance the productivity, I request all members of IFFCO, to make themselves aware of latest technologies in the industries and implement the innovative technologies that can improve our performance further in all fields.

It's my earnest request to every member of Paradeep Unit to inculcate a work culture of higher productivity in the fields of safety, environment, quality, energy conservation, and waste minimization, which will be set as new bench marks for years to come.

K J Patel,
Unit Head.
