Unit Head's Message through Circular

Date: 12.12.2018

To

IFFCO Paradeep Employees, Township residents and School Children

Sub: Celebration of Energy Conservation Day on 14th December, 2018

We feel proud to be a part of country's top most cooperative fertilizer organization which is the largest producer of fertilizers in the country. We are continuously moving on the path of progress by achieving high standards of Productivity, Safety, Environment and Energy conservation and there is further scope for improvement. Apart from that we give emphasis on good environmental management practices, usage of alternative sources of energy, waste minimization and reduce / reuse / recycle philosophy.

This year we have received many awards namely FAI Environment Protection Award, Kalinga Safety Award, 3rd Best Importer at Paradeep Port Award and CSR Excellence Award. This has become possible due to continuous dedication and hard work from each one of you for the organization.

14th December is an important day for all of us in the Industrial Sector for reasserting our actions toward Energy conservation. India stands in third position in global energy consumption with Industrial sector being the highest contributor to the country's energy consumption with about 45% share. The efforts made in promoting the energy efficiency by each and everyone of us will help to save energy appreciably. As part of Energy conservation and continual improvement, Management has implemented ISO 50001:2011-EnMS in Paradeep Unit. I would now urge the employees and township residents to come forward and help in increasing awareness on the importance of saving energy, especially among our young generation.

In order to encourage the spirit of energy conservation, IFFCO Paradeep management conducts awareness campaigns frequently involving employees, township residents and school children. This aims at sensitizing them towards issues of energy conservation. Main activities of this year's campaign are Quiz competition, Slogan competition, training to school children on Energy Conservation, Painting Competition for school students. Winners are felicitated on Energy Conservation Day i.e. 14th December.

It is my earnest request to every member of Paradeep Unit to participate wholeheartedly in every event for making it a grand success. IFFCO believes in very high standard of Productivity, Energy Conservation, Safety & Environmental Protection and I request my dedicated team of IFFCO Paradeep to make all efforts to save energy. Let us all pledge to conserve energy at all levels in our workplace and home.

A.K. Panda
Unit Head
