Managing Director

September 15, 2015

Dear Friends,

It's a moment of pride & satisfaction for all of us that Paradeep Unit; our one of the most precious complex fertilisers manufacturing unit has completed a decade since we took over. The course of time has seen many crest & troughs with dynamic changes in the history of Paradeep Unit. The best part is that we have come out of everything and was able to prove that we can turn around anything. The plant started with the production of mere 30106 MT of Complex Fertilisers which is now grown to 16,91600 MT whereas it also touched the peak of 18,41000 MT in 2011-12. We could make this happen with all your complete dedication, commitment & strength and will to do something more & different for the farmers of the country.

I can still recall the time when we took over the plant and now have completely turned into a healthy unit in the country. We all are so proud of the same. I congratulate everyone for associating directly or indirectly with the Paradeep unit for its major landmark. Friends this is just the beginning. Our objective is to transform quality of life and services to the farmers of our country. Together we shall build our green & agricultural rich India.

All the best for your future, growth & prosperity.

Yours Sincerely,

(U.S. Awasthi)
